

EDITH RIVERO

Technical Department, Team Manager

erivero@dumont.com.mx

Edith joined Dumont in 2014 as a patent analyst and is now in charge of the Chemical area of the Technical Department.

Her practice mainly focuses on the analysis and responses to Official Actions issued by the Mexican Patent Office (IMPI) for patent applications. In addition, she provides her expertise on scientific issues, such as the patent analysis for Freedom-to-Operate and Infringement Opinions, as well as research of prior art and patent drafting. She is also involved in training new analysts. She also conducts prosecution of international patent applications, mainly in Latin America.

Languages: Spanish and English.
